

Development of Expression (Use of Language) Developmental Norm Chart

Age	Would usually have /use	Concerns if	Don't worry if
1;6- 1;11	Minimum of 25 words Desire to communicate both non verbally and non verbally Attempting to copy sounds and words	No desire to communicate Only 5-10 words See risk factors overleaf	Child's words are not completely clear Baby talk is still used for some words Child's words
	At this stage (1;6 -1;11) monitor progr Children's Centres	ress and provide general languag	e and play advice and signpost to
2;0- 2;06	Using a minimum of 50 words and some two word combinations Using early action words Shows and names body parts	Less than 50 words reported No attempt to join words 3 or more relevant risk factors	Sounds are still unclear Continues to use some baby talk
2;06- 2;11	Has approx 300 words Ask simple questions Is linking words together Using action words Stammering common Describes what an object is for Using own name Using adjectives / position words	Child makes no attempt to interact / communicate Child's vocabulary is not increasing Child is not beginning to join words e.g. "more juice"	Lots of sounds are still unclear Child is beginning to join words Child uses baby talk for some words e.g. bikki for biscuit Child misses out little words in sentences e.g. a / the / tense endings
3;00- 3;05	 Sentences of 4 + words in length Good vocabulary Simple story / event telling Having conversations Asks lots of questions 	Any of the above Child does not use everyday words e.g. cup , car Child is not using any action words Child echoes sentences	Child can be a little shy with strangers Child still has some speech difficulties Child misses off / confuses verb tense endings
3;06;- 3;11	Sentences of 5-6 words in length Knows wide range of vocabulary Starting to describe past / present experiences Completes analogies	Sentences are very short Child uses non specific words a lot e.g. "it / "there" / "do" Child is not communicating with others Not having a conversation	Still has some speech difficulties (see speech sheet) Makes grammatical errors e.g. "I runned to the shop"
4;00- 5.00	 Sentences of 6-8 words in length Knows wide range of vocabulary Uses full sentences with the words in the right order Speaks of imaginary conditions Uses joining words e.g. and 	Any of the above Child misses out most grammatical markers Child cannot tell a simple story Child cannot talk about the past and future	Makes mild grammatical errors Confuses he/she / him / her

For children under the age of $2\frac{1}{2}$ years please indicate any risk factors. In view of recent research on late talkers, take into consideration the following risk factors;

- quiet as an infant/limited babbling
- family history of communication delay
- recurrent ear infections
- limited consonant repertoire
- lack of sequenced pretend play
- mild delay in receptive skills
- lack of, or reduced use of, communicative gestures
- lack of verbal imitation
- limited vocabulary consisting of mostly nouns and few or no verbs
- poor social skills (difficulty initiating and participating with peers
- limited change over time

Three or more risk factors are significant
