

Special Schools Nursing Service

We want children with serious health needs to have a good education.

The nurses work with school staff so they can look after children with serious health needs.

This means the children are safe and can learn when they are at school.

The nurses will:

- talk to children and their parents/carers about their health needs
- teach the school staff how to look after the children, like tube feeding
- show school staff how to help if a child has a fit
- help children to stay in school.

The nurses will work with health and social care staff.
